

# NEIGHBORHOOD MEETING

---

## PROJECT OVERVIEW

The Thornton Water Project is a pipeline in Adams, Larimer and Weld Counties that will bring water purchased in the 1980s to Thornton customers

Thornton is in the Adams County land use permitting stage of the Project, and is conducting this Neighborhood Meeting to gather feedback on the Project.

**The location of the pipeline has been determined, and Thornton's representatives will be contacting landowners along the proposed alignment to discuss constructing on their property.**
